### **FINDINGS AND DECISION**

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

#### **Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §133.2 defines an emergency.
3. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
  - 899 – DOCUMENTATION AND FILE REVIEW DOES NOT SUPPORT AN EMERGENCY IN ACCORDANCE WITH RULE 133.2

#### **Issues**

1. Does the disputed service(s) meet the definition of emergency service?
2. What is the applicable rule for determining reimbursement for the disputed services?

3. What is the recommended payment amount for the services in dispute?
4. Is the requestor entitled to reimbursement?

### **Findings**

1. The insurance carrier denied disputed services with reason code, 899 – “DOCUMENTATION AND FILE REVIEW DOES NOT SUPPORT AN EMERGENCY IN ACCORDANCE WITH RULE 133.2”. 28 Texas Administrative Code §133.2(4)(A) states that, “a medical emergency is the sudden onset of a medical condition manifested by acute symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected to result in: (i) placing the patient’s health or bodily function in serious jeopardy, or (ii) serious dysfunction of any body organ or part.” The medical documentation meets the definition of an emergency pursuant to §133.2(4)(A). For example:
  - a. T-SYSTEM MD NOTE (page 1 of 4) showed patient arrived by ambulance and “pt states headache was worse with some tingling all over and made him anxious.”
  - b. T-SYSTEM MD NOTE (page 1 of 4) patient states had seizure two days prior.
  - c. T-SYSTEM RN NOTE (page 1 of 3) shows patient’s pain level 7/10
  - d. T-SYSTEM RN NOTE (page 2 of 3) observed patient to be in distress.

The Division concludes the denial code 899 is not supported. The disputed services will therefore be reviewed per applicable Division rules and fee guidelines.

2. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
3. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
  - Procedure code J2765 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
  - Procedure code 80047 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$11.98. 125% of this amount is \$14.98
  - Procedure code 70450 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC ; however, review of the submitted information finds that the criteria for composite payment have not been met. Therefore, this line may be paid separately. This line is assigned status indicator S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0332, which, per OPPS Addendum A, has a payment rate of \$192.06. This amount multiplied by 60% yields an unadjusted labor-related amount of \$115.24. This amount multiplied by the annual wage index for this facility of 0.9442 yields an adjusted labor-related amount of \$108.81. The non-labor related portion is 40% of the APC rate or \$76.82. The sum of the labor and non-labor related amounts is \$185.63. The cost of these services does not exceed the annual fixed-dollar threshold of \$1,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$185.63. This amount multiplied by 200% yields a MAR of \$371.26.

- Procedure code 99284 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC; however, review of the submitted information finds that the criteria for composite payment have not been met. Therefore, this line may be paid separately. This line is assigned status indicator V, which denotes a clinic or emergency department visit paid under OPPS with separate APC payment. These services are classified under APC 0615, which, per OPPS Addendum A, has a payment rate of \$219.00. This amount multiplied by 60% yields an unadjusted labor-related amount of \$131.40. This amount multiplied by the annual wage index for this facility of 0.9442 yields an adjusted labor-related amount of \$124.07. The non-labor related portion is 40% of the APC rate or \$87.60. The sum of the labor and non-labor related amounts is \$211.67. The cost of these services does not exceed the annual fixed-dollar threshold of \$1,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$211.67. This amount multiplied by 200% yields a MAR of \$423.34.
  - Procedure code 96374, date of service July 4, 2021, has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0437, which, per OPPS Addendum A, has a payment rate of \$34.85. This amount multiplied by 60% yields an unadjusted labor-related amount of \$20.91. This amount multiplied by the annual wage index for this facility of 0.9442 yields an adjusted labor-related amount of \$19.74. The non-labor related portion is 40% of the APC rate or \$13.94. The sum of the labor and non-labor related amounts is \$33.68. The cost of these services does not exceed the annual fixed-dollar threshold of \$1,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$33.68. This amount multiplied by 200% yields a MAR of \$67.36.
  - Procedure code 96375 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0437, which, per OPPS Addendum A, has a payment rate of \$34.85. This amount multiplied by 60% yields an unadjusted labor-related amount of \$20.91. This amount multiplied by the annual wage index for this facility of 0.9442 yields an adjusted labor-related amount of \$19.74. The non-labor related portion is 40% of the APC rate or \$13.94. The sum of the labor and non-labor related amounts is \$33.68. The cost of these services does not exceed the annual fixed-dollar threshold of \$1,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$33.68. This amount multiplied by 200% yields a MAR of \$67.36.
  - Procedure code 96361 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0436, which, per OPPS Addendum A, has a payment rate of \$24.83. This amount multiplied by 60% yields an unadjusted labor-related amount of \$14.90. This amount multiplied by the annual wage index for this facility of 0.9442 yields an adjusted labor-related amount of \$14.07. The non-labor related portion is 40% of the APC rate or \$9.93. The sum of the labor and non-labor related amounts is \$24.00. The cost of these services does not exceed the annual fixed-dollar threshold of \$1,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$24.00. This amount multiplied by 200% yields a MAR of \$48.00.
  - Procedure code J1885 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
4. The total allowable reimbursement for the services in dispute is \$992.30. This amount less the amount previously paid by the insurance carrier of \$0.00 leaves an amount due to the requestor of \$992.30. This amount is recommended.

### **Conclusion**

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$992.30.

## ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$992.30, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
